**Estimates for Coming Fiscal Year Ending August
31, 1919.**

Money required by law,	\$1,177 50
Additional amount required,	2,686 33
Money required for salaries of School Board and other district officers,	200 00
Money required for text books and supplies,	175 00
Money required for repairs,	200 00

Attention Is Called to the Notice Served on School Boards by New Hampshire Department of Public Instruction.

DIVISION OF STATISTICS AND ACCOUNTS.

To School Boards and Superintendents:—

The attention of school officers is called to an amendment to the Public Statutes by the last General Court:

“The fiscal year of town and special school districts beginning Feb. 15, 1917, shall end August 31, 1918, and thereafter the fiscal and scholastic year shall end August 31, annually.”

This change was approved by the Governor on April 4, 1917. Practically all school meetings had been held and in few instances would the appropriations be sufficient to carry on the schools for the extra six months. Your attention is called to this matter so that there may be sufficient appropriations made at the coming school meetings to support the schools until August, 1919.

SCHOOL MEETINGS.

It is advised that the report of the School Board concerning conditions of schools of the district be made to the district at the annual school meeting. This may well include a report of the finances to date of meeting, but it is to be noted that as the year does not close until August 31, the annual financial report cannot be made before that date.

This annual financial report should be presented at the school meeting of 1919.

HARRIETT L. HUNTRESS,

Deputy State Superintendent in Charge of Division.
